Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

## **SAFETY DATA SHEET**

AQUAPRIMER 2900-72 - BASE T

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

undertaking		
1.1 Product identifier		
Product name	: AQUAPRIMER 2900-72 - BASE T	
1.2 Relevant identified u	uses of the substance or mixture and uses advised against	
Product use	: Paint.	
1.3 Details of the suppli	ier of the safety data sheet	
Feknos Group Oy, Takk	atie 3, FI-00370 HELSINKI, FINLAND. Tel. +358 9 506 091.	
e-mail address of pers responsible for this SI	on : ₱rod-safe@teknos.com DS	
National contact		
Feknos Group Oy, Takk	atie 3, FI-00370 HELSINKI, FINLAND. Tel. +358 9 506 091.	
1.4 Emergency telephor	ne number	
National advisory bod	<u>y/Poison Centre</u>	
Telephone number	: 🕅 an emergency, call 112	

## **SECTION 2: Hazards identification**

 $\square$ 

# 2.1 Classification of the substance or mixture Product definition : Mixture Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] Mot classified.

The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended. See Section 11 for more detailed information on health effects and symptoms.

Signal word	: 📈 signal word.
Hazard statements	: 📈 known significant effects or critical hazards.
Precautionary statements	
Prevention	: Not applicable.
Response	: Not applicable.
Storage	: Not applicable.
Disposal	: Not applicable.
Supplemental label elements	<ul> <li>Contains 1,2-benzisothiazol-3(2H)-one and reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1). May produce an allergic reaction.</li> <li>Safety data sheet available on request. Contains biocidal products for in-can preservation: BIT and C(M)IT/MIT (3:1) and MIT.</li> </ul>
Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles	:

#### 2.3 Other hazards

 Date of issue/Date of revision
 : 29/01/2024
 Date of previous issue
 : 19/04/2021
 Version
 : 1.09
 1/16

 AQUAPRIMER 2900-72 - BASE T
 Label No: 46528
 Label No: 46528

## **SECTION 2: Hazards identification**

 Product meets the criteria
 : This mixture does not contain any substances that are assessed to be a PBT or a vPvB according vPvB.

 to Regulation (EC) No.
 1907/2006, Annex XIII

Other hazards which do : None known. not result in classification

## **SECTION 3: Composition/information on ingredients**

3.2 Mixtures	: Mixture				
Product/ingredient name	Identifiers	%	Classification	Specific Conc. Limits, M-factors and ATEs	Туре
,2-benzisothiazol-3(2H)- one	EC: 220-120-9 CAS: 2634-33-5 Index: 613-088-00-6	<0.05	Acute Tox. 4, H302 Skin Irrit. 2, H315 Eye Dam. 1, H318 Skin Sens. 1, H317 Aquatic Acute 1, H400	ATE [Oral] = 1020 mg/kg Skin Sens. 1, H317: C ≥ 0.05% M [Acute] = 1	[1]
reaction mass of: 5-chloro- 2-methyl-4-isothiazolin- 3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol- 3-one [EC no. 220-239-6] (3:1)	CAS: 55965-84-9 Index: 613-167-00-5	<0.0015	Acute Tox. 3, H301 Acute Tox. 2, H310 Acute Tox. 2, H330 Skin Corr. 1C, H314 Eye Dam. 1, H318 Skin Sens. 1A, H317 Aquatic Acute 1, H400 Aquatic Chronic 1, H410 EUH071	ATE [Oral] = 53 mg/ kg ATE [Dermal] = 50 mg/kg ATE [Inhalation (vapours)] = 0.5 mg/l Skin Corr. 1C, H314: $C \ge 0.6\%$ Eye Dam. 1, H318: $C \ge 0.6\%$ Eye Irrit. 2, H319: $0.06\% \le C < 0.6\%$ Skin Sens. 1, H317: $C \ge 0.0015\%$ M [Acute] = 100 M [Chronic] = 100	[1]
			See Section 16 for the full text of the H statements declared above.		

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section. Type

Substance classified with a health or environmental hazard

Occupational exposure limits, if available, are listed in Section 8.

## SECTION 4: First aid measures

4.1 Description of first aid m	neasures	
Eye contact	<ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the eyelids. Check for and remove any contact lenses. Get medical occurs.</li> </ul>	
Inhalation	: Remove victim to fresh air and keep at rest in a position comforta Get medical attention if symptoms occur.	ble for breathing.
Skin contact	<ul> <li>Fush contaminated skin with plenty of water. Remove contamina shoes. Get medical attention if symptoms occur.</li> </ul>	ated clothing and
Ingestion	: Wash out mouth with water. If material has been swallowed and person is conscious, give small quantities of water to drink. Do nulless directed to do so by medical personnel. Get medical atter occur.	ot induce vomiting
Protection of first-aiders	: 📈 action shall be taken involving any personal risk or without sui	table training.
Date of issue/Date of revision	: 29/01/2024 Date of previous issue : 19/04/2021 V	ersion : 1.09 2/16
QUAPRIMER 2900-72 - BAS	SE T Lab	el No : <mark>#</mark> 6528

## **SECTION 4: First aid measures**

#### 4.2 Most important symptoms and effects, both acute and delayed

#### Over-exposure signs/symptoms

: No specific data.
: No specific data.
: 🛛 specific data.
: No specific data.

# 4.3 Indication of any immediate medical attention and special treatment needed Notes to physician : If reat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. Specific treatments : Mo specific treatment.

#### **SECTION 5: Firefighting measures**

5.1 Extinguishing media		
Suitable extinguishing media	e an extinguishing agent suitable for the sur	rounding fire.
Unsuitable extinguishing media	ne known.	
5.2 Special hazards arising	e substance or mixture	
Hazards from the substance or mixture	a fire or if heated, a pressure increase will o	ccur and the container may burst.
Hazardous combustion products	composition products may include the follow tal oxide/oxides	ving materials:
5.3 Advice for firefighters		
Special protective actions for fire-fighters	mptly isolate the scene by removing all per re is a fire. No action shall be taken involvi table training.	
Special protective equipment for fire-fighters	e-fighters should wear appropriate protectiv athing apparatus (SCBA) with a full face-pie de. Clothing for fire-fighters (including heln iforming to European standard EN 469 will emical incidents.	ece operated in positive pressure nets, protective boots and gloves)

## **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
For emergency responders	:	
6.2 Environmental precautions	:	Noid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## 6.3 Methods and material for containment and cleaning up

#### Small spill : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Date of issue/Date of revision	: 29/01/2024	Date of previous issue	: 19/04/2021	Version	:1.09	3/16
QUAPRIMER 2900-72 - BASE T				Label No	<mark>4</mark> 6528	3

## SECTION 6: Accidental release measures

Large	spill
-------	-------

: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with noncombustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor.

6.4 Reference to other : See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. sections See Section 13 for additional waste treatment information.

## **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

**Protective measures** : Put on appropriate personal protective equipment (see Section 8). : Eating, drinking and smoking should be prohibited in areas where this material is Advice on general handled, stored and processed. Workers should wash hands and face before occupational hygiene eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

#### 7.3 Specific end use(s)

: Not available.

Recommendations **Industrial sector specific** solutions

: Not available.

## SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

#### 8.1 Control parameters

#### **Occupational exposure limits**

Product/ingredient name	Exposure limit values
Arisothiazolin-3-one [EC no. 247-500- 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1)	] and Regulation on Limit Values - MAC (Austria, 4/2021). [5-chloro- 2-methyl-2,3-dihydroisothiazol-3-one and 2-methyl-2,3-di- hydroisothiazol-3-one (mixture in the ratio 3:1)] Skin sensitiser. TWA: 0.05 mg/m <sup>3</sup> 8 hours.
No exposure limit value known.	
Date of issue/Date of revision : 29/	1/2024         Date of previous issue         : 19/04/2021         Version         : 1.09         4/16

DNEL	Short term Inhalation	0.04 mg/m <sup>3</sup>	Workers	Local	
DNEL	Long term Oral	0.09 mg/ kg bw/day	General population	Systemic	
DNEL	Short term Oral	0.11 mg/ kg bw/day	General population	Systemic	

#### **PNECs**

No PNECs available

8.2 Exposure controls					
Appropriate engineering controls	:	Sood general ventilation should be sufficient to control worker exposure to airborn contaminants.			
Individual protection measured	ures				
Hygiene measures	:	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.			
Eye/face protection	:	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.			
Skin protection					
Hand protection	:	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.			
		Recommendations : Wear suitable gloves tested to EN374.			
		> 8 hours (breakthrough time): Mitrile gloves. thickness > 0.3 mm			
		Not recommended polyvinyl alcohol (PVA) gloves			
Body protection	:	Fersonal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.			
Other skin protection	:	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.			
Respiratory protection	:	Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.			
		Filter type (spray application): 🛛 📈 P			
Environmental exposure controls	:	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.			

## **SECTION 9: Physical and chemical properties**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

#### 9.1 Information on basic physical and chemical properties

Appearance	
Physical state	: 🗾 🗹 quid.

## **SECTION 12: Ecological information**

12.4 Mobility in soil	
Soil/water partition coefficient (Koc)	: Not available.
Mobility	: Not available.

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

#### 12.6 Endocrine disrupting properties

Not available.

#### 12.7 Other adverse effects

No known significant effects or critical hazards.

## **SECTION 13: Disposal considerations**

13.1 Waste treatment methods	
<u>Product</u>	
Methods of disposal	: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.
Hazardous waste	: ₩ithin the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC.
European waste catalogue (EWC)	: 🕅 80112
Packaging	
Methods of disposal	: The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.
Special precautions	Phis material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

## **SECTION 14: Transport information**

	ADR/RID	ADN	IMDG	ΙΑΤΑ
14.1 UN number or ID number	Not regulated.	Not regulated.	Not regulated.	Not regulated.

## SECTION 15: Regulatory information

Protection based on MAL	: According to the regulations on work involving coded products, the following stipulations apply to the use of personal protective equipment:
	<b>General:</b> Gloves must be worn for all work that may result in soiling. Apron/ coveralls/protective clothing must be worn when soiling is so great that regular wo clothes do not adequately protect skin against contact with the product. A face shield must be worn in work involving spattering if a full mask is not required. In th case, other recommended use of eye protection is not required.
	In all spraying operations in which there is return spray, the following must be wor respiratory protection and arm protectors/apron/coveralls/protective clothing as appropriate or as instructed.
	MAL-code: 00-1 <b>Application:</b> When spraying in existing* spray booths, if the operator is outside t spray zone.
	- Arm protectors must be worn.
	During all spraying where atomisation occurs in cabins or spray booths where the operator is inside the spray zone and during spraying outside a closed facility, call or booth.
	- Full mask with combined filter, coveralls and hood must be worn.
	<b>Drying:</b> Items for drying/drying ovens that are temporarily placed on such things rack trolleys, etc, must be equipped with a mechanical exhaust system to prevent fumes from wet items from passing through workers' inhalation zone.
	<b>Polishing:</b> When polishing treated surfaces, a mask with dust filter must be wor When machine grinding, eye protection must be worn. Work gloves must always worn.
	<b>Caution</b> The regulations contain other stipulations in addition to the above.
	*See Regulations.
List of undesirable substances	: Not listed
Finland	
France	
Reinforced medical surveillance	: Act of July 11, 1977 determining the list of activities which require reinforced medical surveillance: not applicable
<u>Germany</u> Storege close (TBCS 540)	. 40
Storage class (TRGS 510) <u>Hazardous incident ordina</u>	
Hazard class for water	
Technical instruction on air quality control	: <b>F</b> A-Luft Number 5.2.5: 2.3%
AOX	: The product contains organically bound halogens and can contribute to the AOX value in waste water.
<u>Italy</u>	
D.Lgs. 152/06	: Not classified.
Netherlands	
Water Discharge Policy (ABM)	: <b>B</b> (4) Low hazard for aquatic organisms. Decontamination effort: B
