# SECTION 04: First aid measures

- 4.1 Description of first aid measures
- After inhalation:
- Supply fresh air; consult doctor in case of complaints. • *After skin contact:*
- Immediately wash with water and soap and rinse thoroughly. • After eye contact:
- Rinse opened eye for several minutes under running water. *After swallowing:*
- Do not induce vomiting; call for medical help immediately.
- Information for doctor:
- 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
- 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available.

# SECTION 05: Firefighting measures

- 5.1 Extinguishing media
- Suitable extinguishing agents:
- CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire.
- 5.3 Advice for firefighters
- Protective equipment:
- Mouth respiratory protective device.

Do not inhale explosion gases or combustion gases.

Additional information
 Cool endangered receptacles with water spray.
 Collect contaminated fire fighting water separately. It must not enter the sewage system.

# SECTION 06: Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation
- 6.2 Environmental precautions: Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system. In case of seepage into the ground inform responsible authorities. Dilute with plenty of water. In case of gas release or seepage into the ground inform responsible authorities.
