04 First aid measures

- After inhalation:
- Supply fresh air; consult doctor in case of complaints.
- After skin contact:
- Immediately wash with water and soap and rinse thoroughly.
- After eye contact:
 Rinse opened eye for several minutes under running water.
- After swallowing:
- Do not induce vomiting; call for medical help immediately.

05 Firefighting measures

 Suitable extinguishing agents: CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
 Special hazards arising from the substance or mixture

- Formation of toxic gases is possible during heating or in case of fire.
- Protective equipment: Mouth respiratory protective device.
 Do not inhale explosion gases or combustion gases.
- Additional information
 Cool endangered receptacles with water spray.
 Collect contaminated fire fighting water separately. It must not enter the sewage system.

06 Accidental release measures

· Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system. In case of seepage into the ground inform responsible authorities. Dilute with plenty of water. In case of gas release or seepage into the ground inform responsible authorities. Do not allow to enter sewers/ surface or ground water. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

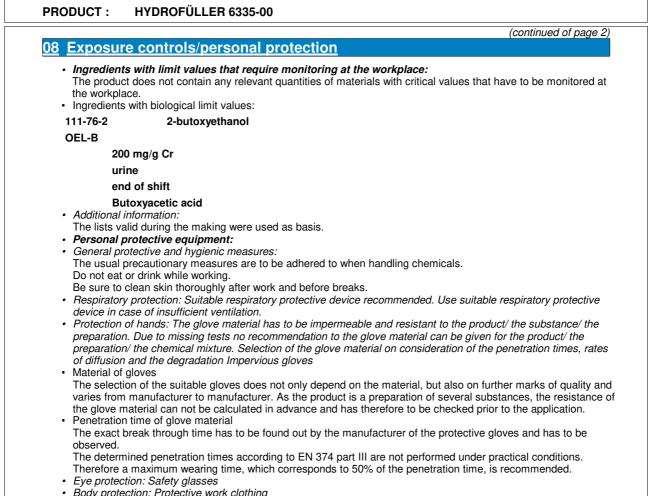

07 Handling and storage

• Handling:

- Precautions for safe handling
- Open and handle receptacle with care.
- Information about fire and explosion protection:
- Prevent impact and friction.
- Storage:
- Requirements to be met by storerooms and receptacles: Store only in the original receptacle.
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Protect from frost.
 Store in cool, dry conditions in well sealed receptacles.
 Protect from heat and direct sunlight.
- Specific end use(s)
- No further relevant information available.

2-dimethylaminoethanol

- 108-01-0 2-Primary irritant effect:
- Skin corrosion/irritation
- No irritant effect.
- Serious eye damage/irritation
- No irritating effect.
- Respiratory or skin sensitisation No sensitising effects known.
- **Additional toxicological information:** The product can cause deformations.

The product is not subject to classification according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version.

12 Ecological information

- Aquatic toxicity:
- No further relevant information available. Persistence and degradability
- No further relevant information available.
- Behaviour in environmental systems:
- Bioaccumulative potential
- No further relevant information available.
- Additional ecological information:
- General notes:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

                                                                                    (continued of page 5)
     The above-mentioned manufacturer's information on the handling of isoc yanates is contained in the safety data
     sheet of the product. The Euro pean Committee of Paint, Printing Ink and Artists 'Colours Manufacture rs
     Associations (CEPE) provides the following information on coatings isocyanates: Ready-to-use paints containing
     isocyanates may have an ir ritant effect on mucous membranes - especially on breathing organs - a nd cause
     hypersensitivity reactions. Inhalation of vapour or spray mis t may cause sensitisation. When handling paints
     containing isocyanates, all precautions required for solvent-containing paints must be follo wed. Vapour and spray
     mist in particular should not be inhaled. Person s who are allergic, asthmatic, or prone to respiratory ailments
     should not work with isocyanate-containing paints.
