## 01 Identification of the hazardous chemical and of the supplier

- **Product identifier**
- *Trade name:*  
HYDROFILL PREMIUM 6338-00 1C AND 2C
- Article number / Safety Data Sheet:  
633380
- **Details of the supplier of the safety data sheet**
- *Manufacturer/Supplier:*  
Teknos AG  
Industriestrasse 7  
LI-9487 Gamprin-Bendern  
T +423 375 94 00  
F +423 375 94 99
- *Further information obtainable from:*  
Product safety department. e-mail address: li-sdb@teknos.com
- *Emergency telephone number:*  
Swiss Toxicological Information Centre, CH-8032 Zürich Emergency telephone: +41 (0)44 251 51 51 (International)

## 02 Hazard identification

- *Classification of the substance or mixture*  
Void
- *Label elements*
- GHS label elements
- Hazard pictograms  
Void
- Signal word  
Void
- Hazard-determining components of labelling:  
titanium dioxide / 2-butoxyethanol
- Hazard statements  
Void

## 03 Composition and information of the ingredients of the hazardous chemical

- **Chemical characterization: Mixtures**
- *Description:*  
Mixture of substances listed below with nonhazardous additions.

- *Dangerous components:*

CAS Number		%
111-76-2	<b>2-butoxyethanol</b> EC number: 203-905-0 Record number 01-2119475108-36 ⚠ Acute Tox. 4 - H302, Acute Tox. 4 - H312, Acute Tox. 4 - H332, Skin Irrit. 2 - H315, Eye Irrit. 2 - H319	1,00- 5,00
* 13463-67-7	<b>titanium dioxide</b> EC number: 236-675-5 Record number 01-2119489379-17	10,00- 25,00
*	<b>ADDITIVE Xi;R36/43</b>	0,0015- 0,50
*	⚠ Eye Irrit. 2 - H319, Skin Sens. 1 -	
*	H317	
*	• <i>Additional information:</i> For the wording of the listed risk phrases refer to section 16.

#### 04 First-aid measures

- **After inhalation:**  
Supply fresh air; consult doctor in case of complaints.
- **After skin contact:**  
Immediately wash with water and soap and rinse thoroughly.
- **After eye contact:**  
Rinse opened eye for several minutes under running water.
- **After swallowing:**  
Do not induce vomiting; call for medical help immediately.

#### 05 Fire-fighting measures

- **Suitable extinguishing agents:**  
CO<sub>2</sub>, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- **Special hazards arising from the substance or mixture**  
Formation of toxic gases is possible during heating or in case of fire.
- **Protective equipment:**  
Mouth respiratory protective device.  
Do not inhale explosion gases or combustion gases.
- **Additional information**  
Cool endangered receptacles with water spray.  
Collect contaminated fire fighting water separately. It must not enter the sewage system.

#### 06 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures**  
Wear protective equipment. Keep unprotected persons away.  
Ensure adequate ventilation
- **Environmental precautions:**  
Do not allow product to reach sewage system or any water course.  
Inform respective authorities in case of seepage into water course or sewage system.
- \* In case of seepage into the ground inform responsible authorities.  
Dilute with plenty of water.
- \* In case of gas release or seepage into the ground inform responsible authorities.  
Do not allow to enter sewers/ surface or ground water.
- **Methods and material for containment and cleaning up:**  
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
- **Reference to other sections**  
See Section 7 for information on safe handling.  
See Section 8 for information on personal protection equipment.  
See Section 13 for disposal information.

#### 07 Handling and storage

- **Handling:**
- \* **Precautions for safe handling**  
Open and handle receptacle with care.
- \* **Information about fire - and explosion protection:**
- \* Prevent impact and friction.
- **Storage:**
- **Requirements to be met by storerooms and receptacles:**  
Store only in the original receptacle.
- **Information about storage in one common storage facility:**  
Not required.
- **Further information about storage conditions:**  
Protect from frost.  
Store in cool, dry conditions in well sealed receptacles.  
Protect from heat and direct sunlight.
- **Specific end use(s)**  
No further relevant information available.

- **Additional information:**  
The lists valid during the making were used as basis.
- **Personal protective equipment:**
- **General protective and hygienic measures:**  
The usual precautionary measures are to be adhered to when handling chemicals.  
Do not eat or drink while working.  
Be sure to clean skin thoroughly after work and before breaks.
- **Respiratory protection:** Suitable respiratory protective device recommended. Use suitable respiratory protective device in case of insufficient ventilation.
- **Protection of hands:** The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Impervious gloves
- **Material of gloves**  
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.
- **Penetration time of glove material**  
The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.  
The determined penetration times according to EN 374 part III are not performed under practical conditions. Therefore a maximum wearing time, which corresponds to 50% of the penetration time, is recommended.
- **Eye protection:** Safety glasses
- **Body protection:** Protective work clothing

- **Primary irritant effect:**

- Skin corrosion/irritation

No irritant effect.

- Serious eye damage/irritation

No irritating effect.

- **Respiratory or skin sensitisation**

No sensitising effects known.

- **Additional toxicological information:**

The product is not subject to classification according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version.

## 12 Ecological information

- **Aquatic toxicity:**

No further relevant information available.

- **Persistence and degradability**

No further relevant information available.

- **Behaviour in environmental systems:**

- **Bioaccumulative potential**

No further relevant information available.

- **Additional ecological information:**

- **General notes:**

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

**15 Regulatory information**

\*

- **National regulations:**

\*

- **Information about limitation of use:**

The above-mentioned manufacturer's information on the handling of isocyanates is contained in the safety data sheet of the product. The European Committee of Paint, Printing Ink and Artists 'Colours Manufacturers' Associations (CEPE) provides the following information on coatings isocyanates: Ready-to-use paints containing isocyanates may have an irritant effect on mucous membranes - especially on breathing organs - and cause hypersensitivity reactions. Inhalation of vapour or spray mist may cause sensitisation. When handling paints containing isocyanates, all precautions required for solvent-containing paints must be followed. Vapour and spray mist in particular should not be inhaled. Persons who are allergic, asthmatic, or prone to respiratory ailments should not work with isocyanate-containing paints.
