## 01 Identification of the substance/mixture and of the company/undertaking

- **Product identifier**

- *Trade name:*  
HYDROPUR 2K DECKLACK 7590

- Article number / Safety Data Sheet:  
759000

- **Details of the supplier of the safety data sheet**

- *Manufacturer/Supplier:*

- Teknos AG

- Industriestrasse 7

- LI-9487 Gamprin-Bendern

- T +423 375 94 00

- F +423 375 94 99

- *Further information obtainable from:*

- Product safety department. e-mail address: li-sdb@teknos.com

- *Emergency telephone number:*

- Swiss Toxicological Information Centre, CH-8032 Zürich Emergency telephone: +41 (0)44 251 51 51 (International)

## 02 Hazards identification

- *Classification of the substance or mixture*

GHS07

Skin Sensitizer - Category 1 - H317 May cause an allergic skin reaction.

H402 Harmful to aquatic life.

Aquatic Chronic 3 - H412 Harmful to aquatic life with long lasting effects.

- *Label elements*

- GHS label elements

- Hazard pictograms

GHS07

- Signal word

- Warning

- Hazard-determining components of labelling:

- 2-butoxyethanol / Solvent naphtha (petroleum), light arom. / Bis(1,2,2,6,6-pentamethyl-4-piperidyl)sebacate

- Hazard statements

- H317 May cause an allergic skin reaction.

- H412 Harmful to aquatic life with long lasting effects.

- Precautionary statements

- P261 Avoid breathing dust/fume/gas/mist/vapours/spray.

- P272 Contaminated work clothing should not be allowed out of the workplace.

- P273 Avoid release to the environment.

- P280 Wear protective gloves.

- P302+P352 IF ON SKIN: Wash with plenty of water.

- P501 Dispose of contents/container in accordance with local/regional/ national/international regulations.

#### 04 First aid measures

- **After inhalation:**  
Supply fresh air and to be sure call for a doctor.  
In case of unconsciousness place patient stably in side position for transportation.
- **After skin contact:**  
Immediately wash with water and soap and rinse thoroughly.
- **After eye contact:**  
Rinse opened eye for several minutes under running water.
- **After swallowing:**  
Do not induce vomiting; call for medical help immediately.

## 05 Firefighting measures

- **Suitable extinguishing agents:**  
CO<sub>2</sub>, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- **Special hazards arising from the substance or mixture**  
Formation of toxic gases is possible during heating or in case of fire.
- **Protective equipment:**  
Mouth respiratory protective device.  
Do not inhale explosion gases or combustion gases.
- **Additional information**  
Cool endangered receptacles with water spray.  
Collect contaminated fire fighting water separately. It must not enter the sewage system.

## 06 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures**  
Wear protective equipment. Keep unprotected persons away.  
Ensure adequate ventilation
- **Environmental precautions:**  
Do not allow product to reach sewage system or any water course.  
Inform respective authorities in case of seepage into water course or sewage system.  
Dilute with plenty of water.  
Do not allow to enter sewers/ surface or ground water.
- **Methods and material for containment and cleaning up:**  
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).  
Ensure adequate ventilation.
- **Reference to other sections**  
See Section 7 for information on safe handling.  
See Section 8 for information on personal protection equipment.  
See Section 13 for disposal information.

## 07 Handling and storage

- **Handling:**
- **Precautions for safe handling**  
Prevent formation of aerosols.
- **Information about fire - and explosion protection:**  
No special measures required.
- **Storage:**
- **Requirements to be met by storerooms and receptacles:**  
Store only in the original receptacle.
- **Information about storage in one common storage facility:**  
Not required.
- **Further information about storage conditions:**  
Protect from frost.  
Store in cool, dry conditions in well sealed receptacles.  
Protect from heat and direct sunlight.
- **Specific end use(s)**  
No further relevant information available.

\*vapour and aerosol;\*\*aerosol only

- **Additional information:**  
The lists valid during the making were used as basis.
- **Personal protective equipment:**
- **General protective and hygienic measures:**  
The usual precautionary measures are to be adhered to when handling chemicals.  
Immediately remove all soiled and contaminated clothing  
Do not inhale gases / fumes / aerosols.  
Avoid contact with the eyes and skin.  
Do not eat or drink while working.  
Be sure to clean skin thoroughly after work and before breaks.
- **Respiratory protection:** *In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device. Suitable respiratory protective device recommended. Use suitable respiratory protective device in case of insufficient ventilation.*
- **Protection of hands:** *The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Protective gloves Impervious gloves*
- **Material of gloves**  
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.
- **Penetration time of glove material**  
The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.  
The determined penetration times according to EN 374 part III are not performed under practical conditions. Therefore a maximum wearing time, which corresponds to 50% of the penetration time, is recommended.
- **Eye protection:** *Safety glasses*
- **Body protection:** *Protective work clothing*
