# Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878 - Ireland

# **SAFETY DATA SHEET**

NORDICA CLASSIC - All variants

# SECTION 1: Identification of the substance/mixture and of the company/ undertaking

| 1.1 Product identifier |
|------------------------|
| Product name           |

: NORDICA CLASSIC - All variants

**1.2 Relevant identified uses of the substance or mixture and uses advised againstProduct use**: Paint.

#### 1.3 Details of the supplier of the safety data sheet

Teknos Group Oy, Takkatie 3, FI-00370 HELSINKI, FINLAND. Tel. +358 9 506 091. e-mail address of person : Prod-safe@teknos.com

responsible for this SDS

#### **National contact**

Teknos Group Oy, Takkatie 3, FI-00370 HELSINKI, FINLAND. Tel. +358 9 506 091.

#### 1.4 Emergency telephone number

#### National advisory body/Poison Centre

- Telephone number
- Emergency medical information: (seven days) contact National Poisons Information Centre, Beaumont Hospital, Dublin 9 DOV2NO, Ireland.
   Members of the public Number (8 am-10 pm): +353 (0)1 809 2166 Healthcare professional telephone Number (24hrs): +353 (0)1 809 2566

# **SECTION 2: Hazards identification**

2.1 Classification of the substance or mixture

Product definition

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

: Mixture

Aquatic Chronic 3, H412

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

| 2.2 Label elements             |   |   |
|--------------------------------|---|---|
| Signal word                    | : | No signal word.   |
| Hazard statements              | : | ₩412 - Harmful to aquatic life with long lasting effects.   |
| Precautionary statements       |   |   |
| General                        | : | P102 - Keep out of reach of children.   |
| Prevention                     | : | ₽273 - Avoid release to the environment.  |
| Response                       | : | Not applicable.   |
| Storage                        | : | Not applicable.   |
| Disposal                       | ; | P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.  |
| Supplemental label<br>elements | : | Contains 3-iodo-2-propynyl-butyl carbamate, 1,2-benzisothiazol-3(2H)-one and reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1). May produce an allergic reaction.<br>Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist. Contains biocidal products for dry film and in-can preservation: IPBC and BIT and C(M)IT/MIT (3:1). Risk of skin sensitisation. |
| Date of issue/Date of revision |   | : 25/11/2024 Date of previous issue : 04/05/2023 Version : 3 1/15   |

# **SECTION 2: Hazards identification**

Annex XVII - Restrictions : on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

#### 2.3 Other hazards

Product meets the criteria : for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII Other hazards which do :

: This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

Other hazards which do : None known. not result in classification

| SECTION 3: Compo | sition/information | on ingredients  |   |
|------------------|--------------------|---|---|
|                  |                    | See Section 16 for<br>the full text of the H<br>statements declared<br>above. | C ≥ 0.0015%<br>M [Acute] = 100<br>M [Chronic] = 100 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

<u>Type</u>

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[\*] The classification as a carcinogen by inhalation applies only to mixtures placed on the market in powder form containing 1% or more of titanium dioxide particles with aerodynamic diameter  $\leq$  10 µm not bound within a matrix.

Occupational exposure limits, if available, are listed in Section 8.

# **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

| Eye contact                | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.                           |
|----------------------------|---|
| Inhalation                 | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.  |
| Skin contact               | : Fush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.   |
| Ingestion                  | : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training.  |

#### 4.2 Most important symptoms and effects, both acute and delayed

Over-exposure signs/symptoms

| Eye contact  | : No specific data. |
|--------------|---------------------|
| Inhalation   | : No specific data. |
| Skin contact | : 📈 specific data.  |
| Ingestion    | : No specific data. |

#### 4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician  | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |
|---------------------|---|
| Specific treatments | : No specific treatment.  |

# **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media        |   |  |
|--------------------------------|---|--|
| Suitable extinguishing media   | : Use an extinguishing agent suitable for the surrounding fire. |  |
| Unsuitable extinguishing media | : None known.   |  |

#### 5.2 Special hazards arising from the substance or mixture

Hazards from the substance or mixture
 In a fire or if heated, a pressure increase will occur and the container may burst. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

: 25/11/2024 Date of previous issue

| <b>SECTION 5: Firefigh</b>                        | ting measures   |
|---|---|
| Hazardous combustion products                     | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>metal oxide/oxides  |
| 5.3 Advice for firefighters                       |   |
| Special protective actions for fire-fighters      | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Special protective<br>equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |

# **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, pro   | ote | ctive equipment and emergency procedures  |
|---------------------------------|-----|---|
| For non-emergency<br>personnel  | :   | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilt material. Put on appropriate personal<br>protective equipment.  |
| For emergency responders        | -   | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| 6.2 Environmental precautions   | :   | Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air). Water polluting material. May be harmful<br>to the environment if released in large quantities.   |
| 6.3 Methods and material for    | со  | ntainment and cleaning up   |
| Small spill                     | :   | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| Large spill                     | :   | Stop leak if without risk. Move containers from spill area. Approach the release<br>from upwind. Prevent entry into sewers, water courses, basements or confined<br>areas. Wash spillages into an effluent treatment plant or proceed as follows.<br>Contain and collect spillage with non-combustible, absorbent material e.g. sand,<br>earth, vermiculite or diatomaceous earth and place in container for disposal<br>according to local regulations. Dispose of via a licensed waste disposal contractor.<br>Contaminated absorbent material may pose the same hazard as the spilt product. |
| 6.4 Reference to other sections | :   | See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.   |

# **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures | : Fut on appropriate personal protective equipment (see Section 8). Do not ingest.<br>Avoid contact with eyes, skin and clothing. Avoid breathing vapour or mist. Avoid<br>release to the environment. Keep in the original container or an approved<br>alternative made from a compatible material, kept tightly closed when not in use.<br>Empty containers retain product residue and can be hazardous. Do not reuse<br>container. |
|---------------------|---|
|---------------------|---|

# **SECTION 7: Handling and storage**

| Advice on general    |
|----------------------|
| occupational hygiene |

: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

#### 7.3 Specific end use(s)

| Recommendations            | : Not available. |
|----------------------------|------------------|
| Industrial sector specific | : Not available. |

Industrial solutions

## SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

#### 8.1 Control parameters

#### **Occupational exposure limits**

| Product/ingredient name | Exposure limit values   |
|-------------------------|---|
| Propylene glycol        | NAOSH (Ireland, 5/2021). Notes: Advisory Occupational<br>Exposure Limit Values (OELVs)<br>OELV-8hr: 10 mg/m <sup>3</sup> 8 hours. #### **PNECs**

No PNECs available

#### 8.2 Exposure controls

| Appropriate engineering<br>controls | : Good general ventilation should be sufficient to control worker exposure to airborr contaminants.   | ıe |
|-------------------------------------|---|----|
| Individual protection meas          | <u>es</u>   |    |
| Hygiene measures                    | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period Appropriate techniques should be used to remove potentially contaminated clothin Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.  |    |
| Eye/face protection                 | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses wi side-shields.  | З, |
| Skin protection                     |   |    |
| Hand protection                     | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicate this is necessary. Considering the parameters specified by the glove manufacture check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. | es |
|                                     | Recommendations : Wear suitable gloves tested to EN374.   |    |
|                                     | > 8 hours (breakthrough time): Nitrile gloves. thickness > 0.3 mm   |    |
|                                     | Not recommended polyvinyl alcohol (PVA) gloves  |    |
|                                     |   |    |

# **SECTION 8: Exposure controls/personal protection**

| •                               | • •   |
|---------------------------------|---|
| Body protection                 | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Other skin protection           | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Respiratory protection          | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.  |
|                                 | Filter type (spray application): A P  |
| Environmental exposure controls | : Emissions from ventilation or work process equipment should be checked to<br>ensure they comply with the requirements of environmental protection legislation.<br>In some cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels. |

# **SECTION 9: Physical and chemical properties**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

10.6 Hazardous : Under normal conditions of storage and use, hazardous decomposition products decomposition products should not be produced.

# **SECTION 11: Toxicological information**

#### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Acute toxicity

| Product/ingredient name  | Result                          | Species | Dose        | Exposure |
|--|---------------------------------|---------|-------------|----------|
| <mark>3</mark> -iodo-2-propynyl-butyl<br>carbamate   | LC50 Inhalation Dusts and mists | Rat     | 0.67 g/m³   | 4 hours  |
|  | LC50 Inhalation Dusts and mists | Rat     | 0.763 mg/l  | 4 hours  |
|  | LD50 Dermal                     | Rat     | >2000 mg/kg | -        |
|  | LD50 Oral                       | Rat     | 400 mg/kg   | -        |
| 1,2-benzisothiazol-3(2H)-<br>one   | LD50 Oral                       | Rat     | 1020 mg/kg  | -        |
| reaction mass of: 5-chloro-<br>2-methyl-4-isothiazolin-<br>3-one [EC no. 247-500-7]<br>and 2-methyl-2H-isothiazol-<br>3-one [EC no. 220-239-6] (3:<br>1) | LD50 Oral                       | Rat     | 53 mg/kg    | -        |

**Conclusion/Summary** 

: Based on available data, the classification criteria are not met.

#### Acute toxicity estimates

| Route                      | ATE value   |
|----------------------------|-------------|
| halation (dusts and mists) | 440.92 mg/l |

Date of issue/Date of revision NORDICA CLASSIC - All variants

# **SECTION 11: Toxicological information**

#### Irritation/Corrosion

| Product/ingredient name  | Result                   | Species | Score | Exposure             | Observation |
|--|--------------------------|---------|-------|----------------------|-------------|
| intanium dioxide   | Skin - Mild irritant     | Human   | -     | 72 hours 300<br>ug l | -           |
| 3-iodo-2-propynyl-butyl<br>carbamate   | Eyes - Severe irritant   | Rabbit  | -     | -                    | -           |
| (Z)-9-Octadecen-1-ol<br>ethoxylated  | Eyes - Moderate irritant | Rabbit  | -     | 100 uL               | -           |
|  | Skin - Moderate irritant | Rabbit  | -     | 24 hours 500<br>mg   | -           |
| 1,2-benzisothiazol-3(2H)-one   | Skin - Mild irritant     | Human   | -     | 48 hours 5 %         | -           |
| reaction mass of: 5-chloro-<br>2-methyl-4-isothiazolin-<br>3-one [EC no. 247-500-7]<br>and 2-methyl-2H-isothiazol-<br>3-one [EC no. 220-239-6] (3:<br>1) | Skin - Severe irritant   | Human   | -     | 0.01 %               | -           |

#### **Conclusion/Summary**

: Based on available data, the classification criteria are not met.

#### **Sensitisation**

| Product/ingredient name          | Route of exposure | Species    | Result          |
|----------------------------------|-------------------|------------|-----------------|
| 了iodo-2-propynyl-butyl carbamate | skin              | Guinea pig | Not sensitizing |

#### **Conclusion/Summary** : Brased on available data, the classification criteria are not met.

#### **Mutagenicity**

| Product/ingredient name          | Test | Experiment                                | Result   |
|----------------------------------|------|---|----------|
| 了iodo-2-propynyl-butyl carbamate | -    | Experiment: In vitro<br>Subject: Bacteria | Negative |

Conclusion/Summary

**ummary** : Based on available data, the classification criteria are not met.

#### **Carcinogenicity**

It has been observed that the carcinogenic hazard of this product arises when respirable dust is inhaled in quantities leading to significant impairment of particle clearance mechanisms in the lung.

#### **Conclusion/Summary**

: Based on available data, the classification criteria are not met.

#### **Reproductive toxicity**

| Product/ingredient name             | Maternal<br>toxicity | Fertility | Developmental<br>toxin | Species         | Dose              | Exposure                       |
|-------------------------------------|----------------------|-----------|------------------------|-----------------|-------------------|--------------------------------|
| Fiodo-2-propynyl-butyl<br>carbamate | Negative             | -         | Negative               | Rabbit - Female | Oral: 20<br>mg/kg | 13 days; 7<br>days per<br>week |
|                                     | Positive             | -         | Negative               | Rabbit - Female | Oral: 50<br>mg/kg | 13 days; 7<br>days per<br>week |

Conclusion/Summary

: Based on available data, the classification criteria are not met.

Teratogenicity

| Product/ingredient name          | Result          | Species         | Dose     | Exposure |
|----------------------------------|-----------------|-----------------|----------|----------|
| 了iodo-2-propynyl-butyl carbamate | Negative - Oral | Rabbit - Female | 50 mg/kg | -        |

**Conclusion/Summary** : Based on available data, the classification criteria are not met.

#### Specific target organ toxicity (single exposure)

Not available.

# **SECTION 13: Disposal considerations**

| 13.1 Waste treatment method       | ods   |
|-----------------------------------|---|
| <u>Product</u>                    |   |
| Methods of disposal               | : The generation of waste should be avoided or minimised wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation and<br>any regional local authority requirements. Dispose of surplus and non-recyclable<br>products via a licensed waste disposal contractor. Waste should not be disposed of<br>untreated to the sewer unless fully compliant with the requirements of all authorities<br>with jurisdiction. |
| European waste<br>catalogue (EWC) | : 080111*, 200127*  |
| Packaging                         |   |
| Methods of disposal               | : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.  |
| Special precautions               | : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.   |

# **SECTION 14: Transport information**
