	< Eye Dam. 1 - H318; 🚸 Flam. Liq. 3	
	- H226; 🕐 Skin Irrit. 2 - H315, STOT SE	
	3 - H335-H336	
108-88-3	toluene	0,00- 0,50
	EC number: 203-625-9	-,,
	🚸 Flam. Liq. 2 - H225; 🚸 Repr. 2 -	
	H361, STOT RE 2 - H373, Asp. Haz H304;	

04 First-aid measures

General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

After inhalation:

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. In case of unconsciousness place patient stably in side position for transportation.

After skin contact:

lass and a discussion	(continued of page 2)
	y wash with water and soap and rinse thoroughly.
After eye of Binse oper	ed eye for several minutes under running water.
 After swall 	
	ce vomiting; call for medical help immediately.
<u>05</u> Fire-figh	ting measures
 Suitable e. 	xtinguishing agents:
CO2, powd	er or water spray. Fight larger fires with water spray or alcohol resistant foam.
	reasons unsuitable extinguishing agents:
Water with	
 Special has 	zards arising from the substance or mixture
 Protective 	of toxic gases is possible during heating or in case of fire.
	iratory protective device.
	le explosion gases or combustion gases.
Additional	
	gered receptacles with water spray.
Collect con	taminated fire fighting water separately. It must not enter the sewage system.
06 Accident	al release measures
 Personal r 	recautions, protective equipment and emergency procedures
	ctive equipment. Keep unprotected persons away.
	quate ventilation
	ental precautions:
	v product to reach sewage system or any water course.
	epage into sewage system, workpits and cellars.
	ective authorities in case of seepage into water course or sewage system.
	v to enter sewers/ surface or ground water.
	nd material for containment and cleaning up: I liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
	ntaminated material as waste according to item 13.
	quate ventilation.
	to other sections
See Sectio	n 7 for information on safe handling.
	n 8 for information on personal protection equipment.
See Sectio	n 13 for disposal information.
07 Handling	and storage
• Handling:	
	s for safe handling
	d ventilation/exhaustion at the workplace.
	mation of aerosols.
	of emission threshold.
	d interior ventilation, especially at floor level. (Fumes are heavier than air).
	about fire - and explosion protection:
	n sources away - Do not smoke.
Protect aga	inst electrostatic charges.
<u></u>	
• Storage:	nts to be met by storerooms and receptacles:

- Store only in the original receptacle. Information about storage in one common storage facility: . Not required.
- Further information about storage conditions: Keep container tightly sealed.
 Store in cool, dry conditions in well sealed receptacles. Protect from heat and direct sunlight.
- Specific end use(s)

Irritant to skin and mucous membranes.
Serious eye damage/irritation No irritating effect. *Respiratory or skin sensitisation* No sensitising effects known. *Additional toxicological information:* The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version: Harmful Irritant

12 Ecological information

- · Aquatic toxicity:
- No further relevant information available. *Persistence and degradability*
- Persistence and degradability No further relevant information available.
- Behaviour in environmental systems:
- Bioaccumulative potential No further relevant information available.
 Additional ecological information:
- General notes:

Do not allow product to reach ground water, water course or sewage system.

Danger to drinking water if even small quantities leak into the ground.

Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water

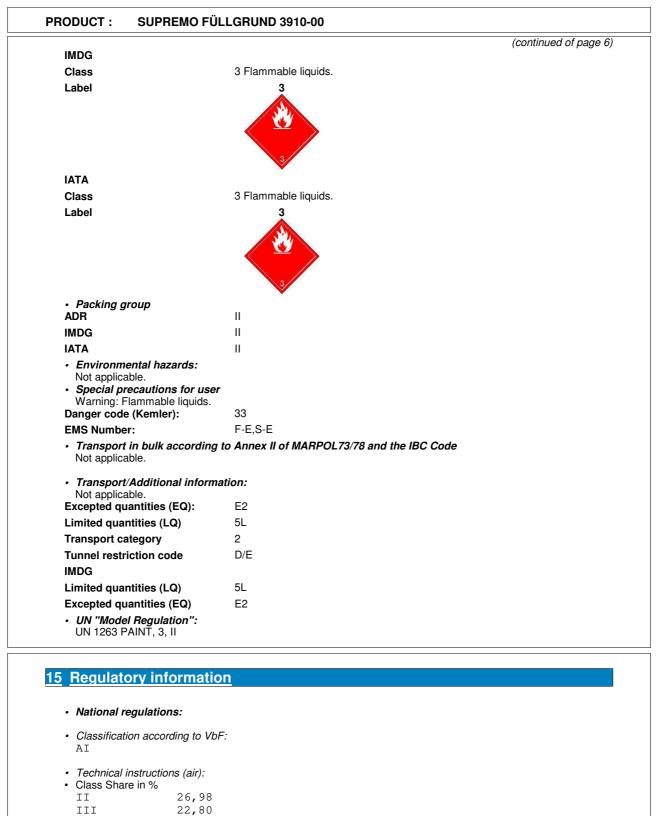

13 Disposal information

- Uncleaned packaging:
- Recommendation:
 - Disposal must be made according to official regulations.
