For the wo	ording of the listed risk phrases refer to section 16.	
	A. First aid massaures	
	4: <u>First aid measures</u>	
 4.1 Description After inha 	iption of first aid measures	
	sh air; consult doctor in case of complaints.	
 After skir 	contact:	
	ely wash with water and soap and rinse thoroughly.	
 After eye Binse ope 	<i>contact:</i> ned eye for several minutes under running water. Then consult a doctor	r.
 After swa 		-
	uce vomiting; call for medical help immediately.	
	on for doctor: mportant symptoms and effects, both acute and delayed	
	relevant information available.	
 4.3 Indica 	tion of any immediate medical attention and special treatment needed	
No lutitier	relevant information available.	
ECTION 0	5: Firefighting measures	
• 5.1 Extin	guishing media	
	extinguishing agents:	
	der or water spray. Fight larger fires with water spray or alcohol resistar	nt foam.
 For safet Water with 	/ reasons unsuitable extinguishing agents:	
	al hazards arising from the substance or mixture	
Formation	of toxic gases is possible during heating or in case of fire.	
	e for firefighters	
 Protective Mouth res 	equipment: piratory protective device.	
	ale explosion gases or combustion gases.	
Additiona	I information	
	ngered receptacles with water spray. ntaminated fire fighting water separately. It must not enter the sewage s	svetom
Collect co	manimated fire lighting water separately. It must not enter the sewage s	system.
	6: Accidental release measures	
	nal precautions, protective equipment and emergency procedures ective equipment. Keep unprotected persons away.	
	equate ventilation	
 6.2 Envir 	onmental precautions:	
	ow product to reach sewage system or any water course.	
	eepage into sewage system, workpits and cellars. pective authorities in case of seepage into water course or sewage sys	tom
	seepage into the ground inform responsible authorities.	tom.
In case of	gas release or seepage into the ground inform responsible authorities.	
Do not allo	ow to enter sewers/ surface or ground water.	
	ds and material for containment and cleaning up:	re cowduct)
	th liquid-binding material (sand, diatomite, acid binders, universal binde alising agent.	13, 3awuusi).
	ontaminated material as waste according to item 13.	
Ensure ad	equate ventilation.	
 6.4 Refer 	ence to other sections

See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

SECTION 07: Handling and storage

- Handling:
- 7.1 Precautions for safe handling . Open and handle receptacle with care. Take note of emission threshold. Ensure good interior ventilation, especially at floor level. (Fumes are heavier than air). Information about fire - and explosion protection: Keep ignition sources away - Do not smoke. Protect against electrostatic charges. Prevent impact and friction. • 7.2 Conditions for safe storage, including any incompatibilities Storage: . Requirements to be met by storerooms and receptacles: Store in a cool location. Store only in the original receptacle. Information about storage in one common storage facility: Not required. Further information about storage conditions: Keep container tightly sealed.
- Store in cool, dry conditions in well sealed receptacles. Protect from heat and direct sunlight.
