

OWEDUR 4193-40

Solvent-based, grain-accentuating 2C primer and top coat for interior use

OWEDUR 4193-40 is a fast-drying, solvent-based, grain-accentuating 2C primer and top coat which feels pleasant to the touch and has very good levelling properties. The coating is very resistant to mechanical stress. The product has a high resistance to chemicals, saliva and perspiration and is very scratch resistant. The product can also be processed on spraying lines with forced drying.

For painting very light or white surfaces we recommend OWEDUR 4126. Cannot be used on wood that has been bleached with peroxide.

TECHNICAL DATA

| Solids | Approx. 24% by weight |
|---------------------------------|--------------------------------------------------------------------------------|
| Volatile organic compound (VOC) | Approx. 682 g/l (DIRECTIVE 2010/75/EU) |
| | The VOC value provided is the average value for factory produced products, and |
| | consequently it will be subject to variations between individual products |
| | covered by this Technical Data Sheet. |
| Theoretical spreading rate | 120 g/m²; 8.3 m²/kg |
| Colours | Colourless. |
| Gloss (60°) | 40 |
| Hardener | Comp. B: OWEDUR 5093-99 |
| Mixing ratio (A:B) | 4:1 parts by weight |
| Pot life, +23°C | 16 h |
| Thinner | OWEDUR 3502-98 |
| Density | Approx. 0.89 g/ml |
| Storage | Storage temperature is +5°C - +30°C. |
| | |

DIRECTION FOR USE

| Surface preparation | Every substrate must be well-cleaned, dry and free from grease and oil. Coating |
|---------------------|---------------------------------------------------------------------------------|
| | removal: Sand, strip |

Application

Stir or shake the product well for several minutes before use, if necessary by machine.

| | APPLICATION ADVICE | | | | | | | | |
|------------------------|---------------------------------------------------------------------------------|------------------------------------------------|----------|--------------|--------------------------------------|--------------|--|--|--|
