

TREND 4559-15

Water-soluble 1C floor sealing coating for interior use

TREND 4559 is a water-soluble, highly abrasion-resistant 1C floor sealing coating for low-emission, odourless treatment of wood parquet floors and stripped floor boards. The product is resistant to light and yellowing.

TECHNICAL DATA

Certificates, approvals and	Swiss environmental label UE II, class C, EMICODE EC 1 Plus
classification	
Fields of application	Floors
Binder	Acrylate
Solids	Approx. 31% by weight
Theoretical spreading rate	120 g/m²; 8.3 m²/kg
Colours	Colourless.
Gloss (60°)	15
Density	Approx. 1.03 g/ml
Storage	Storage temperature is +5°C - +30°C. Store in a tightly closed container.

DIRECTION FOR USE

Surface preparationEvery substrate must be well-cleaned, dry and free from grease and oil. Coating
removal: SandApplication methodBrush, Roller
When renovating or coating exotic wood species, we recommend using
PARKETT RENO GRUND 3300.Do not use on pear wood without a primer. Risk of film formation faults.

When using on dark woods please refer to the instructions in our VTM 5564 "White discolouration" in the areas around the joints of sealed dark wood floors.

Application	•	Stir or shake the product well for several minutes before use, if necessary by			
	machine.	machine.
